Who wins in the race? Is it a sick man? Is it a man who is weak? Is it a man whose blood is impure? An athletic train for every race. The best athletes train all the time. They are always in perfect condition. It is pretty safe to say that the best man will always win. The man who is strong and in the best condition will surely distance his competitors.

In the race for success, the best man will win if he takes care of himself. He cannot win if he neglects his physical condition. It doesn't make any difference how smart he is. If his body isn't strong, he will never finish the race. He must look first for a clear, healthy, strong body, because if a body makes and supports the brain. If the heart pumps impure blood into the brain, you cannot expect the man to be clear-headed, you cannot expect him to accomplish much. If a man's blood is pure and rich, there can not be much the matter with him. If it isn't pure and rich, he may have almost any disease under the sun, and Dr. Pierce's Golden Medical Discovery will cure it. It doesn't make any difference what form the disease takes, or by what name it is called. Nearly all diseases spring from impure blood. If you make the blood pure, you remove the cause and cure the disease. That's common sense—and medical sense—and scientific sense.

You might learn a thousand valuable lessons about preserving your health by reading Dr. Pierce's Common Sense Medical Adviser. It is a grand book and the present edition is absolutely free to all who send 21 one-cent stamps to cover cost of mailing only. It contains 1008 pages and over 300 engravings, 680,000 cloth-bound copies have been sold at \$1.50 each. This free edition is in strong manila paper covers, otherwise it is just the same.
